September 2018

Dear Friends in Christ,

Please forgive the long delay in getting this letter out. We are in Alaska and have been for two months. We are getting Lucille's house ready to sell and we have a great burden for her family and friends here.

Lucille won an older lady to the Lord the other day. This lady asked Lucille what the difference was between baptism and being born again. This opened the door and the lady accepted the gospel message. This is a hard place and people are counting on baptism to be sufficient to get them to heaven. You can hear some of the worst language there is around here. It seems to be part of this culture.

Please pray as we don't have much time here. Lucille also has a twenty-five-year-old grandson who needs a bone-marrow transplant, but more than that, he needs the Lord. Lucille has had cancer, one sister died, another sister and a brother had cancer as well as did her parents and a grandfather. Their background is Catholic and only by the grace of God Lucille was saved when she was in her mid-twenties.

We are attending a good church here and the pastor is the grandson of one of the Cinireskies who was with Maranatha Baptist Mission when we were there. They have been using me some while we are here.

We plan to fly back to Florida early next month.

Thank you so much for your faithful support.

Yours for souls,

A handwritten signature in black ink that reads 'Bro. Hicks'.

Bro. Daylon Hicks
