Dear Supporters, Family and Friends,

"I have never seen anything like this before in all my life". That is the comment I hear a lot of these days and it is true of me as well. God has a purpose for all this sickness, conflict and sadness. We need more and more to pray for each other and seek God's will to end all of it.

Mexico and the U.S. borders are still closed. Our missionaries cannot go in or out. Things are really bad in MX, as far as the virus goes, as well as getting supplies and food. Many churches who are attempting to hold services are being fined for having a service and then shut down. Pray for many of our third world countries and for America that God will not allow such a thing to happen here.

Bro. Harmon and Bro. Gibson have not been able to pass tracts along. No way for them or others to cross the borders. However, new tracts which have been refreshed in their pictures and enlarged in print were delivered to Bro. Gibson and ready to go when others can come to get them. We have already ordered and received new paper for more tracts. Pray for the Connors as they begin to print them.

Judy Connor and I have been able to distribute some tracts to others in the states. She gave a missionary out of my home church a box of 2,800 to be mailed to Spain. Another missionary who is in the states waiting to go back to MX took 2,000 along with a sample of our song book. He will be using them when he can return. I also mailed a 1,000 tracts to a missionary in Elsa, TX to be used in a ministry in MX. I also mailed 1,700 to a missionary out of a supporting church to be taken to Saltillo, MX. If anyone in the states has a Spanish work and would like tracts please contact me. They are free of charge.

As you know Bro. Brewster went to Heaven on March 28<sup>th</sup>. Two weeks later Gloria had another stroke. This one had more complications than her first. It affected her vision, weakness and blood pressure is still unstable. She needs your prayers. One of her sons and his wife are staying with her to help in any way they can. As a result of Bro. Brewster's passing the board has elected Bro. Larry Conner as President of WWP.

Darryl is doing well for now. He had blood poisoning from an infection in May and right after that a bile duct in his liver became completely closed. He had to have a few days in the hospital for each incident but is improving and gaining strength now. Please continue to pray for him.

I had the skin cancer removed almost 3 weeks ago and received 9 stitches but the report said they got it all. Thankful to the Lord. Pray it is the last one. They will check for more next visit.

Support has dropped \$200 since the covid started. We appreciate all who have been able to continue to give to getting God's Word out to the lost. Pray for those who distribute and read the tracts.

Sincerely in Christ,  
Connie Cimino

*I have had problems with my knees,  
legs + feet. Will be seeing a orthopedic soon.  
Please pray.*

*The Written Word - Psalm 119:129*

*The Living Word - Isaiah 9:6*
