Missionaries in Moldova & Malawi

Dear Friends,

October 28, 2020

We arrived in Moldova a few days ago on a work contract. Moldova is a closed country due to Covid, but our team found a way to get us here by contract. We expect to have our living permits within a week or so. We are making ministry plans for here and Central Asia. We will also be working with our students here in Moldova, and we are glad to be back. Our time in Africa was a real blessing of encouragement among our churches and main team. During August and early October we were able to run the Mobile Medical Clinics in bush villages.

I want to devote a this letter to explain how we can work in multiple countries. We are able to leave Malawi because we have a great team there. At the top of the team in Malawi are missionaries Josh and Stacy Hutchens. Josh has started the full time Bible school, and he is working well with the national team I put in place years ago. He also understands the importance of Malawian leadership in the longevity of the ministry. The 200 church plants in our ministry are a product of missionaries AND local men evangelizing and discipling believers. The mission has provided structure and organization as we have divided the mission into 9 districts which are under a solid Malawian leader. The Moldovan mission is also under Moldovan leadership; and we are working with solid men in Central Asia. I praise God for the work He is doing in all of these areas where He has allowed us to have ministry and influence.

Hutchens Family

Hutchens & Chapmans

Isaac: Master's Degree from Zambia:teacher

Magada: Vice-President in Zomba

Michael: Vice-President in Lower Shire
