December 2020

Dear Friends in Christ,

This has been a crazy year. The China virus has been a huge problem throughout the world. We, like so many others, have been restricted. My brother Gerald, a retired army Major got the virus, He had other issues and so he passed away. Gerald and I have been close through the years: hunting arrow heads, camping, fighting, etc.

My son Mark has started videoing some short segments for our website. They highlight a country and hopefully will encourage people to pray for them. The pastor at the First Baptist Church in Point Comfort, Texas when I was saved in nineteen fifty-five, Johnny Witte and I have been in touch through the years. I talked with him the other day and he said I had given him a prayer booklet sixteen years ago and he said he uses it every day. Another pastor told me the same thing.

If you're not familiar with our website, it is: missionaryweb.org. You can click on the link "countries" there and pull up the C.I.A. files. They keep records of every piece of dirt in the world, inhabited or uninhabited. . They have all the information on every country in the world. From our website you can print the prayer booklet In English, Spanish, French, Brazilian Portuguese, and Russian.

I would encourage you to make a resolution to pray for the world's countries. Make a resolution with some meaning. Praying for the world is as worthy as anything you can have.

Yours for souls,

Bro. Hicks
