Dear Friends in Christ,

Greetings in Jesus name, the name that is above every name. All will bow at that name one day. Jesus is out of date for many now, but when they bow before Him, their thoughts will be different. Now is the time to acknowledge Him for who is, the Savior.

Well, the Covid 19 sickness is hitting our area hard right now. Lucille tested positive while I tested negative. I was an army medic In Germany and cared for boys in our battalion who had the Asian flue, but I Never got it nor have I ever had the flue. I've been blessed health wise. My daughter and son-in-law had it as well many others in the area. Churches have been closed at times and it is difficult to have services regularly. These are unusual times with this pandemic on the rise.

Sin continues to prosper no matter what the situation is. It is just more open now, more confrontational, bolder, and certainly less considered.

Our politics are off the chart! All these things affect the Gospel and getting it out. Perhaps some of this will point some in Christ's direction. He is still the only answer.

Pray for us that we can keep well and find the open doors to present the gospel. God is still here and the message of Jesus' sacrifice is still relevant, and still the only way.

Thank you for your faithfulness in supporting us. Be faithful in staying by the stuff.

Yours for souls,

A handwritten signature in black ink that reads 'Bro. Hicks'.
