

THE BUNNELLS

Prayer Needs

Utah - I got to spend time in Utah working with a group of dynamic church planters across the Salt Lake City area. Support, buildings, and people are needed in almost every area. One of the neediest and most open fields in the world today is the United States. Please consider looking at America as a major part of your missions giving.

London - I've preached several more times for our church in London. It's been wonderful to see them grow through this pandemic. They have also been blessed financially, and the church is very stable despite the troubles around them.

China - Years ago, when we worked in Estonia, we were able to do work with Chinese people. These efforts bore fruit, and we continue to be in touch with some of them. Thank you for praying for a man who has been in prison - the Chinese government will be releasing him soon.

From the Agency

If you support a missionary, don't stop now! This is a time to increase our work and our giving for the Gospel!

Tending the Fires

Since my last letter, I have traveled to speak in almost a dozen churches in three countries, on Zoom, and in person, from Washington State to Washington DC. On the trip to the DC area, I brought Jackson along and spent a couple of hours giving him a quick tour of the monuments and the capitol area in a state of lockdown.

Almost twenty years ago, Sarah and I were in this same area on September 13, and saw the damaged Pentagon after the hijackers had crashed a plane into it. It is surreal to come back to the same area so many years later with a child, and see the Capitol in a similar state of lockdown.

It seems that the last two decades of our lives, we have lived as the world around us lurched from crisis to crisis. Ministries have risen and fallen. Wars have broken out and stopped. Days fly by and turn into years. You know what hasn't changed? Not even one little bit? The story of the Gospel. The story of redemption. The story of victory over the grave. The story of death raised to life. The story of hope! The story of God's love for a broken and helpless humanity. That's a story that is timeless and a story that can revive the fires of missions. We are back in the United States for a time. Our job is tend to the home fires, to remind churches what really matters. Let's stoke the Gospel flame again.
