Nov. 2021

Dear Friends in Christ,

I was recently at Crystal River Baptist Church in Carbondale, CO. As you sit on the plane they give you instructions. They said you must wear a mask as it was Federal Law. Well, we know it is not a federal law as laws are not made by mandates. It is just an indication of where we are today.

In talking with preachers and others in Haiti, there are rough times there. I tend to think, "as usual." But, with the kidnappings that are going now, it is bad in the capital and other large towns or cities. These are gang related. They kidnap for money to buy bigger and better weapons. With bigger and better weapons they can be more aggressive with larger robberies. They don't worry about the police or army as they are so incompetent. Please pray for God's people there. And pray for the people in our churches there as they struggle with ever-day life. The country is almost without trees. All who live in towns and cities use charcoal to cook. Wood is also use to burn limestone in making lime. Those with money use propane, but most have to rely on charcoal. It's a difficult position.

Please pray for me as I am having some difficulty with blood pressure and swelling in my legs. I certainly can't complain as I can do most anything I need to do physically. I can still travel with no problems. I have been so blessed with good health, but we all wear out eventually.

Thanksgiving is coming up and we have so much to be thankful for. We were privileged to be born in a country where the gospel is freely preached. Praise the Lord and praise His name.

Yours for souls,

A handwritten signature in black ink that reads 'Bro. Hicks'.
