Dear Friends in Christ,

Do you remember twenty-two years ago when Y2K was such a big thing? We were going to experience some catastrophic events. Y2K came in like a lamb and passed without notice. This is a fact. When Jesus comes there will be catastrophic events all over the world! Babies and little children will be gone. No more Christians. People made all kinds of preparations for Y2K. If you don't know Jesus Christ as your Savior you need to consider repentance and faith in God's Son.

I was a deacon in my later twenties. But before I was a deacon I won people to Christ because the Holy Spirit taught me to witness and to study God's Word. Things look so bad at the present we think Jesus may come anytime, and that's true. Believing that makes our responsibility more urgent than ever: winning the lost, praying for laborers.

I recently made a sign to go over the door as you leave the auditorium which reads, "You Are Entering Your Mission Field." Most Christians want to leave witnessing and visitation to the pastor. That's the job of all Christians.

Haiti continues to have serious problems. Richard is in the process of building a building at Sous Bovoua, the last work we started. Building material is so very high there. Much more expensive than here. I won Richard and his older brother to the Lord when they were teenagers. Richard went to Bro. Don Dryden's Bible school and has been a faithful servant. Please pray for this need and generally for the country. I'm sure you have heard of the kidnappings there for large amounts of money. They need God's help.

Yours in Christ,

Bro. Daylon Hicks
